What after Class 12?

Choosing the right educational path after class 12 can be a daunting task for both students and parents. Gone are the days when opportunities were confined to a few traditional avenues such as medicine, engineering, accounting and law. Today, students from all streams - science, commerce or humanities - have a plethora of options to explore. It's crucial for students and parents alike to be well-informed about these boundless options, and choose wisely. Each student possesses a unique set of talents, passions, and aspirations. Making a judicious decision regarding their educational journey not only sets the course for their academic success, but also lays the foundation for a fulfilling and rewarding career that resonates deeply with their aspirations. This not only maximizes the potential for personal growth and professional success but also fosters a sense of purpose and fulfilment, guiding students towards a future where they can thrive and excel in their chosen fields.

Careers in Management

In recent years, there has been a significant change in the way businesses are run and managed. Informed decision-making backed by scientific approach and structured thinking has become a hallmark of most businesses. Owing to this, the demand for management professionals across businesses has grown exponentially. Management has become one of the most sought-after career options for those who want to climb the corporate ladder at a fast pace. Pursuing a degree in management (BBA/MBA) after completing class 12 provides students formal exposure to the key business domains such as finance, marketing, operations, systems, etc, thus laying a strong foundation for a lucrative corporate career. Moreover, the rigorous course curriculum, interaction with peers, live business projects, periodic assessments etc. groom students to emerge as successful and impactful business leaders in the years to come.

MBA Directly after 12th? All About IPM

The Indian Institutes of Management (IIMs) are the most sought-after destinations in India for candidates who wish to pursue MBA. Candidates appear for entrance exams such as CAT after graduation, and go through a competitive selection process to secure admission to the MBA programme in IIMs and other premier business schools. However, students now have a prime opportunity to enter the IIMs immediately after class 12 and secure a Bachelor's degree as well as MBA from these prestigious institutes.

The Five-Year Integrated Programme in Management (IPM) was pioneered by the Indian Institute of Management, Indore in 2011. The programme imparts 5 years of extensive training in Management, after which the students get absorbed in the industry into various managerial positions. After successful completion of the 5-year programme, students are awarded a dual degree – BA in Foundations of Management and MBA. Students who choose to exit after 3 years are awarded BA in Foundations of Management. The IPM programme of IIM Indore has established itself as one of the most coveted avenues for students looking for a career in Management.

In addition to IIM Indore, IIM Rohtak introduced the Five-Year Integrated Programme in Management (IPM) in the year 2019 for students who aim to pursue their career in Business Management after class 12. IIM Rohtak conducts its own entrance exam—IPMAT Rohtak. On successful completion of five years of academic rigour, the participant is awarded with MBA by IIM Rohtak. Students who choose to exit after completing the programme at the end of three years are awarded the degree of Bachelor of Business Administration (BBA).

IIM Jammu and IIM Bodh Gaya introduced the Five-Year Integrated Programme in Management (IPM) in the year 2021. Admission is through a joint entrance exam called JIPMAT. Students who successfully complete the 5 year programme are awarded both a bachelor's degree (BBA) and a master's degree (MBA).

IIM Ranchi also introduced Five-Year Integrated Programme in Management (IPM) in the year 2021. Admission is through IPMAT Indore entrance exam. Students who successfully complete the 5 year programme are awarded both a bachelor's degree (BBA) and a master's degree (MBA).

The IPM targets students who have just completed or are about to complete their 10+2 from various boards in the country. There are many reasons why this programme would excite a student fresh out of school: -

- The brand value of being an IIM graduate
- The opportunity to complete graduate and post-graduate education in management from top business schools through a single admission process after class 12
- Enhanced employment opportunities as compared to traditional graduation options
- Less competition in the entrance exam as compared to post-graduate entrance tests like CAT
- Better training in management, thanks to the world-class IIM faculty and a five-year training period compared to two years of regular MBA programmes.

The IPM Selection Process

Students seeking admission to IPM in any of the institutes offering the programme need to appear for an admission test. Those shortlisted based on the test scores are called for the next stage of the selection process, which generally consists of a written ability test and personal interview.

Life in IPM

The Five Year Integrated Programme in Management (IPM) aims to instil managerial and decision-making capabilities in young professionals using modern academic pedagogy of global standards based on a holistic and multi-disciplinary curriculum.

Given the nature of the programme, the learning goals of IPM are split into those for the first 3 years and the last two years.

Learning goals for the first three years of the programme

The IPM will enable students to:

1. Demonstrate language and communication skills
2. Demonstrate knowledge of foundations of management
3. Demonstrate ethical understanding
4. Demonstrate social consciousness

Learning goals of the last two years

The last two years of the programme are at post-graduate level. The IPM students join the PGP programme students and go through the same set of courses as the PGP students. Hence the learning goals for these two years are the same as those of the PGP Programme.

These include:

1. To develop critical thinking
2. To be able to work effectively in groups
3. To develop competence in quantitative analysis to emerge as socially conscious and ethically motivated managers, leaders and entrepreneurs

The programme consists of 15 terms spread over a period of 5 years, with each year having 3 terms of 3 months. IPM has two parts. The first three years build a foundation, and the last two years focus on management.

The foundation has three major elements

- Courses in Mathematics, Statistics and Economics build analytical rigour.
- Courses in Psychology, Sociology and Political Science along with courses in Economics provide an understanding of the core disciplines on which the study of management is based.
- Courses in Humanities, Literature and Fine Arts provide breadth and perspective.

Summer Placements

Summer placement at the Indian Institutes of Management (IIMs) refers to internships that students undertake during their summer break as part of their academic curriculum. It is an integral part of the IPM curriculum, providing students with invaluable exposure to the corporate world and helping them kickstart their professional careers.

Every year IIM Indore achieves 100% summer placements for their IPM class. The summer placement process in the previous years witnessed strong participation from prestigious recruiters with presence across varied sectors such as BFSI, Conglomerate, Construction & Real Estate, Consulting, Consumer Goods, E-commerce, Healthcare, Logistics & Manufacturing, Technology, Media & Telecommunications, Utilities & Renewables. With over 140 recruiters visiting the campus, the institute continues to deepen bonds with its regular recruiters, while building fresh relationships with over 55+ firms. The average stipend of the batch rose to 2.25 lakhs this year- a sharp increase of 37% from the last year. The median stipend grew by 35%, standing at 2.12 lakhs. The highest stipend offered by firms participating this season stood at 6.6 lakhs, marking an astonishing increase of 50% as compared to last year.

Final Placements

Final placement refers to the process where students who are enrolled in various programmes at IIMs secure job offers from companies during the final placement season. These placements usually occur towards the end of the academic year, typically between December and April, depending on the specific institute.

During the final placement process, companies from various sectors such as consulting, finance, marketing, technology, and others visit the campuses to recruit students. The placement process typically involves several stages including pre-placement talks, resume submission, interviews, group discussions, and job offers.

Every year IIM Indore successfully secures 100% placements for its IPM batch. Last year was no different - the students secured an average salary of 25.6 lacs p.a. with the highest salary offer at 1 crore p.a. The median salary offered was 24.5 lacs p.a.

Prominent Recruiters

BBA (Bachelor of Business Administration)

BBA is a 3 year undergraduate program that covers business and general courses, offering comprehensive knowledge of the business world and its operations. The program also develops business acumen, provides exposure to international business, and offers practical experience through social and corporate internships. Admission to BBA programs occurs through both merit and entrance examinations.

The syllabus and pattern for the IPMAT examinations mentioned above overlaps with the preparation a candidate needs for some of the top BBA Colleges in India.

Some of the prominent examinations for admission into these BBA Colleges are given below:

Symbiosis Entrance Test - SET

- For admission into various campuses of Symbiosis International University (SIU) - a private multi-institutional university.
- SET is the common written test for the admission to UG courses in the institutes of SIU.

T.I.M.E. is the national leader in entrance exam training with a pan-India presence and is headquartered at Hyderabad. Established in 1992, **T.I.M.E.** today operates out of 192 offices located in 96 cities and towns across the country. IIT / IIM graduates form a part of the core team at **T.I.M.E.**

T.I.M.E. is acknowledged as a multi-location, multi-programme training specialist run on corporate lines, and today, offers a wide range of programmes not only for national and state-level entrance exams like the CAT, MAT, CMAT, CLAT, BANK PO, SSC CGL & GATE, but also for international exams like GMAT and GRE. We have successfully trained over 27,00,000 students for various courses over the past 32 years. Our focus has always been on getting results par excellence.

Our Faculty

The backbone of our IPM entrance exam course are the faculty members who deliver the training programme. We have a group of highly motivated and experienced faculty members who are passionate about imparting knowledge and skill sets to our students. Our team comprises several faculty members who are alumni of institutions like the IITs and IIMs. Here are some characteristics that set our teachers apart:

1. **Subject Matter Expertise:** Teachers at **T.I.M.E.** possess deep knowledge and expertise in their subject areas. They stay updated with the latest developments in their fields and are capable of providing insights that go beyond textbook theories.
2. **Passion for Teaching:** They are passionate about teaching and genuinely enjoy imparting knowledge to students. Their enthusiasm for the subject matter is contagious, making learning more engaging and enjoyable for students.
3. **Effective Communication Skills:** They communicate complex concepts in a clear and understandable manner.
4. **Engagement and Interaction:** They encourage active participation and interaction in the classroom. They foster an environment where students feel comfortable asking questions, sharing opinions, and engaging in discussions.
5. **Inspiration and Motivation:** They inspire and motivate students to strive for excellence and pursue their goals with determination.

Our Curriculum

The course structure at **T.I.M.E.** has been designed to ensure that all the students irrespective of their initial level of aptitude are able to grasp the concepts being taught. We impart excellent conceptual clarity to our students, which enables them to do well in these entrance exams. The study material offered as part of the course has been designed exclusively for these entrance exams and hence will prove to be highly beneficial. We maintain a high level of standard in terms of quality and quantity of questions included in our study material. The mock tests provided to our students ensure that they not only get familiar with the test pattern but also regularly get a chance to figure out their strengths and weaknesses and work on them. These mock tests have been designed with a lot of care and are a good replica of past actual entrance exam standards. Due to this our students are ready to face the entrance exams with complete confidence.

- Once a student clears the entrance exam, he/she is shortlisted for the second stage of selection process at IIMs/other top B-Schools. During this stage B-Schools conduct GD/WAT/PI etc. At **T.I.M.E.**, these shortlisted students are trained by experienced faculty members who have successfully helped thousands of students in the past.
- Our training sessions include basics of "Group Discussion", "Essay writing (WAT)", "Personal Interview" etc. Apart from this we provide the shortlisted candidates with practice sessions in the form of mock GDs, mock essays and mock interviews.
- Extensive and in-depth feedback is shared with the students following these mock sessions, so that they can work on their weaknesses. These mocks maintain the same kind of difficulty level and content as the actual GDs/WATs and PIs.
